

Ensuring wireless connection in the home

ZigBee repeater– Part No: PL-WSC-Z-01

Additional information

PassivSystems reserves the right to make changes to its products from time-to-time without notice.

When contracting with consumers, our commercial partners are responsible for seeking the home occupant's approval of privacy terms – an example of recommended privacy terms are available upon request.

Electrical back box and 13 amp cabling to be supplied by suitably qualified installer.

Component snapshot

The PassivEnergy™ ZigBee repeater is a ZigBee -enabled device for extending communications within a home network. It can be purchased as an additional service component for those properties that require a stronger communications link than their existing ZigBee home network can deliver.

Integrating with PassivEnergy

The ZigBee repeater requires the PassivHub to be part of a PassivEnergy service.

Included in package

- One repeater
- Mousehole cover

Minimum requirements

- PassivHub to be installed
- Additional components to be installed as required by the PassivEnergy service selected
- A 13 amp power socket

Certification

CE approved

Warranty

The ZigBee repeater is warranted for 1 year from the date of installation or from 14 months from date of delivery (whichever is sooner), unless expressly agreed otherwise.

Failed units will be replaced as per PassivSystems RMA process.

Re-installation is the responsibility of the commercial partner.
