

Talking to your tank

Hot Water Controller (WSC)

Product ID: PL-WSC-Z-01

Component snapshot

The Hot Water Controller (WSC) is a component of the PassivEnergy™ Service. It enables wired sensors to connect to the hot water tank and it wirelessly communicates the data collected from those sensors to PassivHub.

Integrating with PassivEnergy

The Hot Water Controller requires PassivHub to be part of the PassivEnergy Service.

Included in package

- Hot Water Controller (WSC)
- Installation guide
- Mounting screws
- Backplate

Minimum requirements

- Subscription to PassivEnergy Service (which requires broadband connection)
- PassivHub
- Mains power
- Must be wired into a fused spur from the home's main wiring

Certification

- CE approved

Warranty

The Hot Water Controller is warranted for 1 year from the date of installation or for 14 months from the date of delivery (whichever is sooner), unless expressly agreed otherwise.

Failed units will be replaced as per PassivSystems RMA process.

Re-installation is the responsibility of the commercial partner.

Additional information

PassivSystems reserves the right to make changes to its products from time-to-time without notice.

When contracting with consumers, our commercial partners are responsible for seeking the home occupant's approval of privacy terms – an example of recommended privacy terms is available on request.

Technical detail

Power supply:	230V AC
Transmitter frequency:	2.4GHz
Operating temperature range:	0°C to 55°C
Case material:	Thermoplastic, flame retardant
Dimensions:	148mm x 87mm x 42mm
